We employ over 180 employees with more than 100 of them highly skilled in state of the art premises, including engineering, plumbing, shipwrights, yacht paint spraying, joinery, rigging, marine electrics and electronics, yacht valeting and dry sailing.

All work is handled through our project managers, who will be your point of contact throughout. Whether you require just a lift and scrub or a complete boat refit, your project manager will ensure the works are carried out on time and to your budget.
